

POLYURETHANE FOAM TAPE

Product Overview: SureSeal is a versatile, premium foam tape that is highly compressible and malleable. Composed of saturated polyurethane foam, SureSeal possesses the sealing characteristics of closed cell foams, but also maintains the recovery characteristics of sponge-like substances. As such, SureSeal can be used to seal irregular surfaces as well as traditional window, door, and framing applications.

Product Uses: SureSeal is well suited for use in the automotive, marine, RV, construction, and appliance industries. Common applications include: window, door, and framing; expansion joints, plumbing, heating, air conditioning, glass and metal curtain walls, concrete expansion joints, and pre-stressed concrete junctions.

Technical Information:

Raw Material Base.....Polyurethane Foam
 Color.....Black, Light Grey
 Specific Gravity.....0.10 – 0.20
 Elongation (ASTM D412).....<200%
 Odor.....Odorless
 Solids by Weight.....100%
 QUV Exp.No Effect
 Shelf Life.....20 Years
 Physical State.....Saturated Open Cell Foam
 Manufactured State.....Rolls, Custom Die Cut

Application Information: SureSeal material a laminate of adhesive coating and balanced foam. It is extruded onto removable release paper backing to facilitate handling. When ready for use, strip off the release paper to expose the adhesive. Handle the uncoated foam and press firmly into place. When using to seal applications involving fasteners, position on the entry side to prevent the penetration of contaminants through fastener holes.

Packaging & Handling: SureSeal is available in a variety of different widths, thicknesses, and roll dimensions. No special handling is required for this product, though storage in a cool, dry area is recommended for maximum shelf life and effectiveness.

Safety Instructions: No special requirements are needed. An MSDS is available upon request.
